

**State Public School Building Fund
2006 - 2007**

The State Public School Building Fund was created to provide state funds for the capital improvement of schools in the state. Such capital improvements include the cost of erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities.

The financial structure of the State Public School Building Fund is made up of three interlocking, yet distinct features: (1) annual grants to school districts; (2) legislative funding of the program; and (3) state school bonds. The Mississippi Board of Education approved building projects as follows during 2006 - 2007:

	Number Approved	Total Cost	Public School Building Funds
