

Chapter 38: Healthy and Safe Schools

Rule 38.3 Beverage Regulations. The State Board of Education shall adopt beverage regulations for school district compliance of what products can be sold and when on a school campus.

Beverage Regulations for Mississippi Schools

The Mississippi Board of Education recognizes the critical role that adequate hydration plays in healthy weights, disease prevention, and dental health, as well as academic performance. The fluid and nutrition needs of young people at school are best met through well-balanced, nutrient-rich school meals provided through Child Nutrition Programs, planned by nutrition professionals following US Department of Agriculture (USDA) guidelines.
