

Chapter 93: Career-Technical Education Professional Development

Rule 93.1 Career-Technical Education Professional Development. Career and Technical personnel shall be encouraged to improve their occupational and teaching competencies. The Office of Career and Technical Education shall implement procedures for improving qualifications for personnel through:

1. Long-term or special (short-term) arrangement with institutions of higher learning for graduate courses, both technical and professional, and non-credit workshops for teacher improvement;
2. Workshops, conferences, individual visits and other means by members of the Office of Career and Technical Education staff;
3. Exchange of teaching personnel with industries, etc.; and
4. Organized and planned tours and visits to various businesses, industries, etc., and by solicitation of the services of occupational people to serve on committees for teacher improvement.
